

UNTAPPED TALENT: UNLOCKING THE GENDER AND RACIAL STEM GAP

The U.S. Department of Labor, Office of Federal Contract Compliance Programs (OFCCP) is hosting an extremely important virtual webinar focusing on strategies and resources available to increase the representation of females and minorities in STEM education and employment.

You will hear dynamic presentations from two higher education institutions, Norfolk State University (Historically Black University) and the University of Maryland Baltimore County (UMBC) as well as a nationally based non-profit community organization, Girls Inc. The presenting organizations execute highly touted and innovative STEM programs and initiatives designed to bridge the gender and racial STEM divide.

If you are a community-based organization, educational institution, educational professional, federal contractor, private employer, job seeker, and/or student with STEM education and career aspirations then you should attend.

Date: September 20, 2022

Time: 1:00pm-3:00pm

Venue: WEBEX
